

SITECORE UPGRADE SERVICE

Measure twice, cut once.

Service Description

You've successfully launched Sitecore, but is your current version ready for an upgrade? Perhaps you want to take advantage of the latest Sitecore features, but first you need assurances that things will go smoothly. With multiple generations of Sitecore under our belt, we are intimately familiar with the hidden pitfalls and costs that poorly planned upgrades can cause. Aware's Sitecore certified developers will measure your site's upgradeability readiness, nail down a plan for a seamless migration, and install the upgrade in collaboration with your development team.

Your Upgrade Readiness Plan will include:

- Environment review
- Code conformance
- Template audit
- Custom code migration
- Third party integrations
- Upgrade path
- Module compatibility
- Testing and rollback plan
- Estimate upgrade costs

Benefits

- Maximize your annual maintenance investment
- Prevent costly rework
- De-clutter and archive
- Peace of mind
